

AMENDMENT TO THE SPECIFICATION

Please amend the specification by marked up replacement paragraph(s) as follows.

Please replace the fourth full paragraph on page 1, lines 27-32, with the following:

-- Recently, since the number of rotations of the disk ~~is~~ has increased, a dynamic vibration absorber ~~comes~~ needs to be provided in order to avoid vibration generated because of the ~~increase~~ increased of the number of rotations. In this case, a counterweight 55 for absorbing the vibration generated because of the rotation of the spindle motor is mounted on the base chassis 52 through elastic bodies 54a and 54b. --
